## О тендере ЮНИДО

Информируем об открытии тендера Организации Объединенных Наций по промышленному развитию (ЮНИДО) на поставку швейного оборудования в рамках финансируемого Россией проекта ЮНИДО в Армении «Повышение конкурентоспособности экспортно-ориентированных отраслей промышленности Армении за счет модернизации и обеспечения доступа к рынкам сбыта: фаза II» (техническое задание прилагается).

Общий бюджет проекта составляет 1,75 млн. долл. США. Целью данного проекта является расширение местного, регионального и международного рынка сбыта для продукции текстильной и швейной отрасли Армении. В частности, проект предусматривает усовершенствование технических возможностей и внедрение инновационных решений в дизайне и моделировании готовой продукции, содействие в установлении деловых контактов и сотрудничества для повышения эффективности всех составляющих цепочки добавленной стоимости.

Участие в тендере возможно только через Портал закупок ЮНИДО – <https://procurement.unido.org/> (Current Opportunities).

Инструкция по регистрации на портале доступна по ссылке: [https://procurement.unido.org/doc/Bidder\\_Access\\_Guide\\_2016.pdf](https://procurement.unido.org/doc/Bidder_Access_Guide_2016.pdf), информация о работе закупок ЮНИДО - <http://www.ved.gov.ru/files/images/UNIDO2.pdf>.

Просим оказать содействие в доведении указанной информации до российских компаний, которые могут быть заинтересованы в участии в тендерных процедурах ЮНИДО на поставку вышеупомянутого оборудования.

Срок подачи заявок 18 февраля 2019 года.

Приложение: на 20 л. в 1 экз.

## UNITED NATIONS INDUSTRIAL DEVELOPMENT ORGANIZATION

### TECHNICAL SPECIFICATIONS FOR PURCHASE OF SEWING AND GARMENT MAKING EQUIPMENT

#### UNIDO PROJECT

#### *“IMPROVING COMPETITIVENESS OF EXPORT-ORIENTED INDUSTRIES IN ARMENIA THROUGH MODERNIZATION AND MARKET ACCESS: PHASE II” (SAP ID 160113)*

#### 1. General Background Information

##### *UNIDO Project “Improving Competitiveness of Export-Oriented Industries in Armenia through Modernization and Market Access: PHASE II” (SAP ID 160113):*

Since September 2014, UNIDO has been supporting Armenia to revitalize its clothing industry through the Pilot Phase of the project Industrial Upgrading and Modernization Programme in Armenia (Armenia IUMP). The goal of the Phase I was to develop a full fashion production cycle reflecting both modern trends and traditions of Armenian and the world fashion industry, as well as to promote exports of the ready-made collections. Through this project, initiated in September 2014 and due to the completion in August 2016, UNIDO has worked together with national counterparts in order to strengthen their operational and institutional framework and provide technical assistance supporting the implementation of the national strategies for development of the light industry.

Based on the results achieved during the Project’s Phase I, the Government of Armenia requested UNIDO to extend the project to other associated sectors of the light industry.

The Phase II of the project is expected to contribute to the implementation of the National Export-Led Industrial Development Strategy of Armenia through strengthening productivity, competitiveness and collective export capacities of Armenian manufacturing companies operating in the priority light industries. Specifically, the project aims to maintain and improve the market share of local textile and clothing industry operators in domestic markets and to take advantage of opportunities afforded by the regional economic integration processes. The project’s Phase II also aims at maintaining and improving market share of local shoe and clothing industry operators in domestic markets and to take advantage of opportunities afforded by prospects of integration within Eurasian Economic Union’s trade arrangements.

This will be achieved through the identification of export opportunities for Armenian textile/clothing and the shoe/leather products and producers, modernization of industrial enterprises and improving their competitiveness, and scaling up achieved results by building national technical capacities. As a result, SMEs operating in the textile/clothing and the shoe/leather sectors will modernize their businesses, expand production, raise quality and gain access to markets with the support of reinforced national technical expertise.

Below are the expected project outputs and activities.

1. Enterprise diagnosis, industrial modernization and market positioning for the selected pilot SMEs in the shoe/leather goods and garment industries in Armenia using innovative marketing approaches with possible development of export consortia among the participating manufacturers.
2. Human and technical capacities of national counterpart institutions and of national expertise (experts, trainers, engineers and technicians) strengthened in providing enterprise diagnosis and modernization, competitiveness building and marketing, shoe and garment design, patterning and grading, inter-institutional networking and business partnerships and other related services to the national shoe and garment industries.

As per the UNIDO Project Activity 2.4 “Establish/upgrade an existing training centre for footwear sector in close cooperation with institutions, universities and enterprises”, it is expected that the UNIDO will establish the “Light Industry Training and Service Center located in Yerevan, Armenia, to serve as the technical support institution and training centre for the private sector operators and other experts of the leather goods and shoes manufacturing industry in Armenia. The below enlisted equipment is expected to be procured, delivered and installed for further use at the Light Industry Training and Service Center.

## **2. Purpose of the supply**

The purpose of this supply is to provide equipment as per the list provided in this Technical Specification, which is expected to be delivered to Light Industry Training and Service Center located in Yerevan, Armenia. The Light Industry Training and Service Center is the project partner and beneficiary technical support institution of the UNIDO technical cooperation project “Improving Competitiveness of Export-Oriented Industries in Armenia through Modernization and Market Access”: Phase II (SAP ID160113).

## **3. The Scope of Supply**

### **3.1 The following items (or equivalent) should be supplied:**

**PLEASE NOTE THAT ONLY OFFERS SUBMITTED IN THE PROVIDED FORMAT OF THE BELOW TABLE WILL BE ACCEPTED/CONSIDERED.**

The bidders shall complete the table by filling in unit and total prices as well as indicate their compliance of deviation from the technical requirements of the Technical Specifications.

The specifications established in this document are the minimum requirements to be accepted. Products offered in response to these specifications must meet or exceed all requirements herein. Modifications or additions to basic standard products or lesser size / capability to meet the requirements outlined herein will not be accepted.

**SCOPE OF SUPPLY**

**LOT 1: SEWING MACHINE 1 NEEDLE**

UNIDO REQUIREMENTS			TO BE COMPLETED BY THE INVITEE			
Item	Name and required parameters	Quantity	Unit price (USD)	Total item price (USD)	Compliance* Yes/no	Remarks
01	<p><b>SEWING MACHINE 1 NEEDLE</b></p> <p><b>Technical Specifications:</b></p> <p><b>JUKI DDL 8700 or equivalent</b></p> <ul style="list-style-type: none"> <li>• Engine: Servomotor</li> <li>• Application – Medium weight</li> <li>• Max. ### **3.2 Supplier's General Responsibilities**

- The supplier must provide evidence of being a recognized supplier.
- The supplier shall make its best efforts to ensure that all works are carried out according to "good quality and adequate accessories". The supplier assumes the overall responsibility for the correct selection and installation of the equipment for the practical implementation of the project.
- The supplier shall take into account all the details presented in these TSs and shall request any further information, which is considered necessary for the correct implementation of the works, prior to the submission of the offer.
- Bidders must include the manufacturer's name, country of origin of each item and the model number in the bid.
- Bidders shall state any delivery costs separately, including export packing, shipping insurance, customs taxes or any other indirect costs, as applicable.
- The supplier should be able to supply the equipment where necessary and also provide all services needed for the technical reception of the equipment at the time of the installation of equipment and other supplies.
- The supplier should demonstrate a minimum of 3 years professional experience.

### **3.3 Language**

The Official Project communication language shall be English. The drawings, catalogues, illustrations, printed specifications and other documentation related to the present project shall be preferably in Russian, or otherwise in English.

#### **4. Guarantee Requirements**

At least 1 year(s) guarantee is required.

The supplier shall replace/refurbish (in place or at their facilities outside) without any further costs for the client including shipping for any or all the equipment in case of malfunctioning and/or incapable of achieving the required accuracy/specification relevant to the tests.

#### **5. Delivery Period**

The equipment should be delivered as soon as soon as possible. The latest expected date for delivery of equipment is by 30 April 2019.

The Seller shall hand over the goods, and UNIDO shall take over the goods, at the place or places of delivery specified in this Contract form. Unless otherwise stipulated in the Contract form, the goods shall be delivered DAP (Delivered at Place) INCOTERMS 2010.

If possible, the delivery of all offered equipment and accessories (all Lots) in one shipment would be preferred. Otherwise, the delivery of equipment and accessories in separate shipments are also acceptable, with assumption of observation of overall delivery period.

**6. Award conditions**

UNIDO reserves the right to split an award between any suppliers in any combination, and accept the partial offers, as it may deem appropriate. If the quotation is submitted on an "all or none" basis, it should be clearly stated as such in the response to tender.

Partial offers are acceptable. Offers are to be quoted in US Dollars.
